INFORMATION DISCLOSURE STATEMENT (IDS)

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed within three months of the U.S. filing date (37 CFR 1.97(b)(1)).

Docket No.: HOI-16102

In accordance with 37 CFR 1.98(a)(2)(ii), Applicant has not submitted copies of U.S. patents and U.S. patent applications. Applicant submits herewith copies of foreign patents and non-patent literature in accordance with 37 CFR 1.98(a)(2).

A concise explanation of relevance of the items listed on form PTO/SB/08 is given for only non-English language listed items.

NL 1,011,782

The Dutch NL 1,011,782 patent was cited in Category A in the International Search Report of the corresponding PCT application, and it is not referred to in the written opinion of the international searching authority or in the IPR.

The Derwent title for NL 1,011,782 is: "Frequency Modulated Continuous Wave radar system uses simultaneous multiple sweeps at different frequencies to achieve greater accuracy of range measurements."

The Derwent Abstract for NL 1,011,782 is: "Conventional Frequency Modulated Continuous Wave – FMCW – radar systems use a single sweep transmission signal, the frequency of which changes by the bandwidth (B) during a period (T). The present system transmits a number of simultaneous multiple sweeps at different frequencies. The receiver uses Fourier transformation techniques to achieve greater accuracy of range measurements."

Docket No : HOI-16102

The system disclosed in NL 1.011,7782 uses a single sweep FM-CW transmission signal

and does not make use of several receivers arranged at a first receiver direction and a second

receiver direction.

Thus, the system disclosed in NL 1,011,782 is very much different from the system

according to the new claim 1, which system simultaneously transmits both a CW radar signal and

a FM-CW signal, and which system further has at least two receivers arranged in a first direction

and at least two receivers arranged in a second direction.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement

shall not be construed to mean that a search has been made or that no other material information

as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR 1.97(h), the filing of this

Information Disclosure Statement shall not be construed to be an admission that any patent,

publication or other information referred to therein is "prior art" for this invention unless

specifically designated as such.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR

1.98 and the Examiner is respectfully requested to consider the listed references.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be

filed or which should have been filed herewith (or with any paper hereafter filed in this
